

DescendState::on_update

LandState::on_update

StatusMonitor::get
_landed_state

```
graph LR; A[DescendState::on_update] --> C[StatusMonitor::get_landed_state]; B[LandState::on_update] --> C;
```

The diagram illustrates a dependency or data flow. On the left, two white rectangular boxes are stacked vertically. The top box contains the text 'DescendState::on_update' and the bottom box contains 'LandState::on_update'. On the right, there is a gray rectangular box containing the text 'StatusMonitor::get' on the top line and '_landed_state' on the bottom line. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box. The top arrow starts from the right side of the 'DescendState::on_update' box, and the bottom arrow starts from the right side of the 'LandState::on_update' box.
