

include/core/NodeBase.h

```
graph TD; A[include/core/NodeBase.h] --> B[array]; A --> C[ros/ros.h];
```

The diagram illustrates a header file dependency. A central box at the top, labeled 'include/core/NodeBase.h', has two blue arrows pointing downwards to two separate boxes below it. The left box is labeled 'array' and the right box is labeled 'ros/ros.h'. This indicates that the 'NodeBase.h' header file includes both the 'array' header and the 'ros/ros.h' header.

array

ros/ros.h
