

include/fsm/StateNode.h

```
graph TD; A[include/fsm/StateNode.h] --> B[array]; A --> C[ros/ros.h];
```

The diagram illustrates the dependencies of the header file `include/fsm/StateNode.h`. It is represented by a gray rectangular box at the top. Two blue arrows originate from the bottom of this box, pointing downwards to two separate white rectangular boxes. The left box contains the text `array`, and the right box contains the text `ros/ros.h`. This visualizes that `StateNode.h` includes both `array` and `ros/ros.h`.

array

ros/ros.h
